  - Questions – Evangelina Ocampo
    - \*What resources do we offer for mental health, especially for younger students? How do we make students aware? Our mental health program is robust. We have a Crisis Team, Mental Health team, and all counselors are trained. Outside resources also available. Level of need is assessed. (McCuiston)
    - \*What is being done about the damaged doors in the science wing? Don't know who is involved. Don't know what the circumstances are for the damage. Situation being monitored. (McCuiston)
    - \*Could we lose Pride Time if the student survey comes back negatively? Student surveys in to date are overwhelmingly positive toward Pride Time. Staff will need to vote, but survey will be valuable data used to inform teachers. (McCuiston)
